DR. SUN YAT SEN
FAVORS AMERICANS

PEKIN China, Dec. 1. It is learn-
ed that at the suggestion of Dr. Sun

RENOVATING THE
INTERIOR OF THE
PALACE BUILDING

When Governor Peary returns from
his vacation he will scarcely recog-
nize the interior of the capitol build-
ing, for it is now undergoing exten-
sive renovating, and ere the chief
executive's homecoming the hallways
and staircase on the first and second
floors will have been refitted, revar-
nished and promptly present an en-
tirely different face. The offices of
the land commissioner, on the base-
ment floor, and the attorney general
on the second floor, also will have re-
paired walls and ceilings and new
coats of paint.

Just what the color motif is to be,
is not announced. That is known
only to the decorators, who have been
given the responsibility of deciding
the important question and limited to
such colors as may have a mild, sooth-
ing but not somber effect.

The renovation is made under a
special appropriation of \$10,000 for
that purpose, and most of that sum
will be used in making the improve-
ments. One of the changes in the
basement is the removal of the water
resource branch of the geological sur-
vey department from its offices on
that floor to new headquarters in the
Kapiolani building. The waterworks
branch of the department of public
works is to be removed to the rooms
just vacated.

Before long the army transports
plying between San Francisco and
Manila via this port may be provided
with airships as well as lifeboats, as
a protective measure. The new ma-
chines will not, of course, be of any
use in case of accident to the trans-
port itself, as it would take a whole
fleet of them to allow the passengers
and crew to abandon ship, but they
will be used as a means of rescuing
others who may be in urgent need of
help.

Army officials are contemplating
the adoption of a special type of fly-
ing machine as a means for rescuing
persons from a disabled ship at sea.
One of three boards which are exam-
ining life-saving devices has been in
session at Newport News, Va., and the
flying machine was one of about six-
ty devices, many of them of foreign
make, which were submitted for ex-
amination.

Other boards have been holding ses-
sions in San Francisco and Manila,
and when all of the recommendations
are received the quartermaster corps
will determine what devices will be
purchased to be installed on army
transports.

vember 26-22 mules, Schuman; 6
horses, Macpherson; 2 horses, Cal-
ifornia Feed Company; 1 Holstein
bull, P. M. Pond.

PEARL FISHING OFF
LOWER CALIFORNIA

On June 1 the pearl-fishing conces-
sion held by the Mangara Exploration
Limited of London was canceled by
the Mexican Government; the com-
pany receiving for its equipment,
consisting of boats, diving suits, air
pumps, and other paraphernalia 300,
000 pesos, or about \$150,000 gold,
writes Consul Lucien Sullivan from
La Paz, Mexico.

Under date of July 14, 1912, notices
were posted by the inspector of fish-
eries that the register is now open for
the inscription of the names of per-
sons desiring to take out licenses to
dive for pearl oysters.

It will now be possible for the pearl
buyers of American houses to secure
some of the choice pearls taken from
these waters. The beautiful pink, sea
green, bronze and blue pearls, it is be-
lieved, are not found in other parts of
the world. While it is true that
many pearls are secured from the
mussels found in the Mississippi and
some other rivers in the United
States, the fresh-water pearl does not
have the luster of pearls obtained
from salt-water pearl oysters.

The first boats will be allowed to
go out about September 1, and the
first zone to be fished will be that
along the west coast of the mainland
south of Acapulco. The boats with
their equipment are to be sold at auc-
tion by the Government in lots to the
highest bidder.

Bringing oil from Port San Luis
the American tanker Santa Maria is
due to arrive here within a week
with a supply of fuel for the local
branch of the Union Oil Company.

Yat Sen, President Yuan has recom-
mended to the cabinet the advisabil-
ity of asking the Interstate Commerce
Commission of the United States to
name three eminent railroad men to
consult with Dr. Sun in the planning
of the new railways of China.

Dr. Sun was requested to submit the
names of such prominent engineers
of the United States as he would like
to have associated with him, but he
made the suggestion that, if the cabi-
net thought it wise, the ministry of

foreign affairs could communicate di-
rectly with the commerce commission,
and he had no doubt but that that
body would gladly recommend engi-
neers and promoters of prominence.

Dr. Sun did not appear personally
before the cabinet, but in a lengthy
communication he gave an outline of
his ideas in the matter of railroad
construction. He said that he had no
doubt whatever that American capital
sufficient for every railroad need
of China could be secured with little

trouble, and particularly as at this
very moment a number of American
groups of financiers were seeking
railway concessions.

Gen. Ping Lo, the most eminent of
Chinese engineers, has furnished the
cabinet, at the suggestion of President
Yuan, a comprehensive map of the
proposed system of national railways,
as suggested by Dr. Sun and his as-
sociates. The building of more than
72,000 miles in the next five years is
embraced.
